

README:

Steps to run the *final-project.ipynb*:

1. Open the folder: *Project_Code* in a code editor
2. Create a virtualenv or install required libraries given in cell-1
3. Enter a test_img path as '**data/raw/DB4_B/102_5.tif**' (or any other image from the data directory)
4. Run ALL cells.

PS: 102_5.pdf and 102_6.pdf contain the outputs corresponding to images 102_5.tif and 102_6.tif referenced in the report.
